---

13 Structure and soul, side by side

## A Life Curated

---

15 Rhythms, light, and the softness of pace

## The terrain

Where textures tell stories

## The rhythm

Felt in light, wind, and  
stillness

---

## ELEMENTAL IS THE ORIGIN.

---

It's not just nature, it's the  
**material** that holds memory.

Stone, sand, wind, and  
water.

The way a shadow drapes.  
The pause between  
**presence** and **absence**.

It's where materials **shape**  
how we move, dwell, and  
**connect within a space**.

This is where we return to.  
Land that speaks in **texture**,  
and air that shapes how we  
feel.

**Design** doesn't always begin in  
a studio.  
Sometimes, it starts with a  
**horizon**.

At **Da Terra**, we don't chase  
noise.  
We design with **presence**.

By Da Terra

# THE SHOWROOM

There's a quiet strength to a room that knows what it's holding.

At **Da Terra** every space is a dialogue. We are **not just curators** of pieces, but **composers** of feeling and flow. A dialogue between form and function, tradition and edge, silence and soul.

Our pieces don't ask for attention, they earn it.

Through **exclusive partnerships**, we bring together works that defy convention but never overpower the room.

With **Boca do Lobo**, we celebrate bold forms and intricate finishes, timeless pieces that anchor a space with intention.

With **KOKET**, we embrace the sculptural and the dramatic, statement designs that radiate elegance and emotion.

These are not just luxury pieces, but gestures of **craftsmanship, heritage**, and unapologetic **expression**.

Set against softened palettes and sculptural restraint, each object is given space to breathe. What emerges is not a showroom, but a narrative in **material, light**, and **presence**.

Every piece is **handmade** by **European artisans** using **elite materials** and **time-honored techniques**, passed down through generations.

At **Da Terra**, refinement doesn't whisper. It **resonates**.

## PRODUCT GALLERY

Crafted with obsessive attention to detail, our pieces adapt with grace, whether placed in minimalist interiors or richly layered homes.

They remain **timeless**, not because they blend in, but because they belong.

Each object is made to be reimagined. **Finishes, textures, and tones tailored** to your space, your rhythm, your story.

Our curation isn't a catalogue.  
It's presence, designed.

Welcome to the **collection**.  
Welcome to **Da Terra**.

# A LIFE CURATED

To ride through **open terrain**, feeling the **rhythm** of the earth beneath you.

To sit beneath **cherry blossoms** and watch the petals fall.

These are not **grand gestures**; they're quiet ones. But they **stay** with us.

A curated life isn't about what fills a space, but what **slows it down**.

**Textures** that soothe, **light** that lingers, **objects** that carry memory.

At **Da Terra**, we believe design should hold the same **stillness**.

Not just **comfort**, but **return**.

---

"Some moments ask for nothing but your **presence**."

Like **petals in the wind**, they pass, but they leave something behind."

Da Terra

# MODERN ART

STILLNESS, SHAPED.

Modern art doesn't always offer **clarity**. And that's the point. It asks us to **slow down**, to sit in the **discomfort of ambiguity**, and to **feel** rather than understand.

It's a conversation of **form, silence**, and the **spaces in between**.

At **Da Terra**, we're drawn to art that holds **restraint** but pulses with **presence**.

**Sculptures** that appear weightless, **paintings** that feel like pauses, **textures** that speak louder than color.

These aren't just **visuals**, they're **anchors**.

They **ground** a space without overwhelming it.

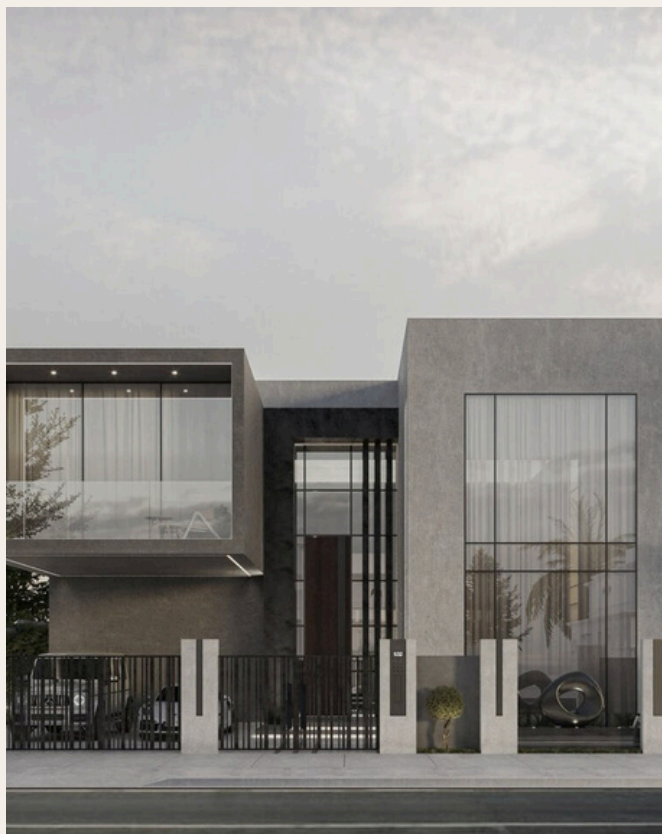

Modern art, for us, isn't a trend or a category. It's a **way of seeing**. It allows room for **interpretation**, space for **emotion**, and **depth without excess**.

In a world that often demands **explanation**, art like this simply **is**. And in its **stillness**, it reminds us to **listen**; not with our ears, but with our **breath**.

**Art that doesn't ask for attention, but holds it anyway.**

# ARCHITECTURE & INTERIOR DESIGN

## SHAPE & STILLNESS

Some spaces invite **awe**.  
Others invite **reflection**.

**Architecture** isn't one  
language, it's a **conversation**  
between **gravity** and **grace**.

From **symmetry** to bold  
**restraint**, design matters most  
when it knows when to **stand**  
**out** and when to be **still**.

We shape with **intention**,  
balancing **strength** and  
**softness**.  
Not to **tame** space, but to give  
it **rhythm**.

We don't just build homes.  
We build **presence**.

# DESIGN WITH DEPTH

DESIGN IS HOW WE SPEAK  
TO THE SENSES.

At **Da Terra**, design is not a single aesthetic, it's a **language of experience**.

We balance **emotion** with **function**, shaping spaces that feel as good as they look.

Our studio brings **decades of collective expertise** across **residential, commercial, and hospitality** projects, working seamlessly across styles and scales.

From **layout flow** and **functional zoning** to **spatial storytelling** and **sensory design**, we don't just decorate, we **masterplan**.

With deep understanding of **luxury living, cultural nuance, and architectural rhythm**, we create spaces that **live beautifully and work effortlessly**.

**Grandeur is not a gesture, but a composition.**

Design begins the moment you step inside. In a grand entryway, **every curve, material, and reflection** is considered, not to impress, but to welcome with **quiet confidence**.

**Some rooms don't whisper. They glow.**

Every **curve**, every **carving**, every **chandelier drop** is a study in **craftsmanship**, made not just to impress, but to **embrace**.

**“Beauty awakens the soul to act.”**

*-Dante Alighieri*

To **design a home** is to shape how someone arrives, and how they stay.

At **Da Terra**, every detail, from **first impression to final retreat**, is chosen not just for **beauty**, but for **how it makes you feel** within it.

**Hospitality** is not just about service, but about **how a space welcomes you.**

From the lighting to the linens, every detail in our hotel projects is designed to create **calm, comfort, and quiet elegance** that lingers long after checkout.

**Luxury is not about excess. It's about intention.**  
This living space balances **openness and intimacy**, inviting conversation without **overwhelming the senses.**

**Designing for children** is about **balance, wonder and warmth, imagination and intent.**

We craft spaces that feel **playful yet purposeful**, where every detail invites **curiosity and comfort.**

Because **childhood should feel as special as the home that holds it.**

## Stories live in Stone

In every turn of an old street, we're reminded that beauty doesn't fade; it settles in, deepens, and becomes part of the walls.

Da Terra is inspired by places that feel lived in, layered, and full of soul.

“EVEN THE  
RUINS HAVE  
THEIR OWN  
KIND OF  
BEAUTY”

– W.G. SEBALD

## Da Terra

We are not a brand.  
We are a point of view.

Rooted in **craftsmanship** and built on **instinct**, Da Terra is where objects become **experiences**, and design becomes **dialogue**.

We work with those who see space not as **background**, but as **presence**.

This is our world; **thoughtful**, **sculptural**,  
and **deeply personal**.

Welcome in.
